EDUCATION

Coursera

June 1 2021 – August 16 2021

Google IT Support Professional Certification. 5 course certification that includes competency in troubleshooting, customer service, networking, operating systems, system administration, and cyber security.

M1m0

January 1 2021 – November 4 2021

Web Development | Python | SQL. Accredited certification in multiple programming languages to include HTML, CSS, and JavaScript. Proficiency in building websites

WORK EXPERIENCE

US ARMY Information Technology Specialist

April 2008–September 2019

As an Information Technology Specialist, I maintained, processed, and troubleshooted military computer systems and operations. I dealt with highly sensitive information and had to use technical skills with my aptitude for programming and computer languages.

Amazon Learning Coordinator

January 2021– February 2022

As a Learning Coordinator inside a Fulfillment Center, I work with Area Managers, Operations managers, and production assistants to coordinate all associate onboarding activities for the site. I am constantly improving long-term capabilities of the operational areas by providing feedback to trainers and ambassadors, deep diving into standards of work to assist Operations leaders in improving processes, and providing high level administrative management.

Amazon Information Technology Equipment Coordinator

February 2022 - Present

As an IT equipment coordinator, my responsibilities include the allocation and maintenance of all IT equipment throughout the Fulfillment center. I am also responsible for RMA and repair processes for all devices under warranty. I specifically support the technicians and engineers in daily projects and activities as directed.
